

EXPERIENCE MODIFICATION RATE AND

RECORDABLE INCIDENT RATE / LOST-TIME INCIDENT RATE

This form must be completed and submitted to Jet Propulsion Laboratory. The intent of this form is to measure and evaluate each Subcontractor's frequency, severity, and incident rate as they relate to workers compensation insurance claims. The EMR (Experience Modification Rate) is a number established by insurance carriers to accurately adjust an individual company's workers compensation insurance premiums based on industry average workers compensation insurance claims for their respective NAICS (North American Industry Classification System). Recordable and lost-time incident rates used to measure and evaluate a company's frequency, severity, and incident rates as they relate to occupational related injuries and illnesses. In addition to the information provided below, please attach copies of your OSHA 300, 301, and 300A forms for each of the three respective years.

Name of Subcontractor: _____ Date: _____

Project Name: _____ Contract No.: _____

NAICS / SIC No. : _____

Recordable Injuries/Illnesses Data:
